

## AIRCRAFT MAINTENANCE PRODUCTION PLANNING & RECORDS MANAGEMENT

### PROGRAMME REFERENCE:

AMPPRM

### PROGRAMME PRE-REQUISITES:

A good engineering background.

### PROGRAMME SYNOPSIS:

This professional development training programme is designed to equip participants with the fundamental knowledge and skills necessary to effectively and efficiently carry out aircraft maintenance production planning and record management activities within an AMO. The programme includes a number of case studies and activities to facilitate practical understanding and competence development.

### KEY TOPICS:

-  Fundamentals of Continuing Airworthiness
-  Customer's Maintenance Requirements
-  Work Capacity & Capability Planning
-  Work Scheduling & Package Preparation
-  Human Factors Considerations
-  Production Cost Considerations
-  Work Monitoring & Management
-  Dealing with Production Planning Issues
-  Post Maintenance Work Review
-  Maintenance Records Management

### BENEFITS OF ATTENDING:

By the end of the programme, participants will be able to:

1. Explain what continuing airworthiness entails in practical terms.

2. Evaluate a customer's maintenance requirements, as well as the resources needed for the completion of the job.
3. Systematically produce a work schedule and work pack for the completion of the job.
4. Deal with maintenance production planning issues without compromising safety.
5. Conduct a post maintenance work review.
6. Systematically manage maintenance records.

### PROGRAMME DURATION:

2 Day - 12 Training Hours

### PROGRAMME AVAILABILITY:

**SCHEDULED (PHYSICAL CLASSROOM):** Check [here](#)

**IN-COMPANY:** Available - Standard & Tailored

**ONLINE:** Available - View options [here](#)

### PROGRAMME FEE:

**SCHEDULED (PHYSICAL CLASSROOM):** Check [here](#)

**IN-COMPANY:** Please [contact us](#) for a quote

**ONLINE:** Please [click here](#) for details

### WHO SHOULD ATTEND?

Maintenance planners, project managers, & other technical personnel involved with aircraft maintenance production planning activities within an AMO. In particular, the programme is suitable for personnel who are new to the subject matter, or are already familiar with the fundamentals of the subject but require formal training to improve their knowledge and practical skill set.
